HUDSON 38 GMT MKII

USER GUIDE

WELCOME

THE HUDSON 38 GMT MKII

Our travel watch, reworked from the ground up: a slimmer 38 mm case, a box-domed sapphire crystal and 30 ATM water resistance. With a 24-hour scale on the dial, an independent GMT hand and a bi-directional bezel, it keeps track of three time zones at once.

Inside beats the Sellita SW330-2, a Swiss Made self-winding GMT movement in Elaboré grade. This guide covers what you need to wear, set and look after your watch.

AT A GLANCE

YOUR WATCH

1	Lume pip · on the bezel
2	Bezel · 24 h, 60 clicks, both ways
3	Hour hand · luminous
4	24-hour scale · on the dial
5	Seconds hand · stops for setting
6	TPU strap · or steel bracelet
7	Minute hand · luminous
8	Crown · screw-down
9	GMT hand · one turn in 24 h
10	Date window

WINDING & SETTING

After setting, push the crown to 1 and screw it down clockwise. Never unscrew it under water.

0 · SCREWED DOWN

The normal position. Only screwed down is the watch water resistant to 30 ATM.

1 · WINDING

Unscrew the crown. If the watch has stopped, turn it clockwise at least 25 times.

2 · DATE & GMT

Pull to the first notch. Counter-clockwise sets the date, clockwise the GMT hand. Avoid setting the date between 21:00 and 03:00.

3 · TIME

Pull to the second notch; the seconds hand stops. Turn either way. If the date changes as the hands pass 12, it is midnight.

WATER RESISTANCE & CARE

WATER RESISTANCE · 30 ATM

Suitable for swimming, snorkelling and recreational diving. Screw the crown down before the watch meets water and never operate it under water. Avoid hot showers, saunas and steam, and rinse the watch in fresh water after the sea or the pool.

CARE

With the crown screwed down, clean the case with a soft cloth, or with fresh water and a soft brush. Keep the watch away from perfume, chemicals and strong magnets – magnets can make it run fast.

THREE TIME ZONES

The GMT hand turns once in 24 hours: set it to a second time zone and read it on the 24-hour scale of the dial. Turn the bezel to read a third time zone against the same hand.

STRAP & BRACELET

The watch comes on a TPU strap; steel bracelets are optional. Quick-release end-links make changing between them easy. The bracelet clasp adjusts on the fly without tools, and its links are held by screws – size it with a small precision screwdriver, or let a jeweller do it.

TECHNICAL SPECIFICATIONS

DIAMETER	38 mm
THICKNESS	11 mm, excluding crystal
LUG TO LUG	47 mm
CASE	316L stainless steel
BEZEL	Sandblasted steel, two-tone 24 h scale, 60 clicks, bi-directional

FUNCTIONS	Hours, minutes, central seconds, GMT hand, date
DIAL	Jet Black, 24 h scale, X1 Super-LumiNova
STRAP	TPU; optional steel bracelet, 20 to 16 mm

WARRANTY & SERVICE

WARRANTY

Two years from the date of delivery, on manufacturing defects of the movement, case and crystal. The warranty stays with the watch: a next owner is covered for the rest of the term, as long as we have the original order number.

NOT COVERED

Knocks and drops, water or fire damage, magnetisation, normal wear, and repairs or modifications we haven't approved.

SERVICE

As long as the watch runs well, it needs no service; a full service is typically due every 5–8 years. Request every repair through the service form on maenwatches.com. Under warranty, we cover insured shipping both ways, and a repair never shortens the warranty.

QUESTIONS

support@maenwatches.com – we aim to reply within two business days.
