SKYMASTER 38 MKIII

USER GUIDE

WELCOME

THE SKYMASTER 38 MKIII

Our vintage-inspired chronograph, redesigned around the Sellita SW510 M b TOP Grade: a 38 mm steel case, a box-domed sapphire crystal and 10 ATM water resistance. The MCR has a 12-hour ceramic bezel, the MCT a fixed tachymeter bezel.

The movement is Swiss Made, hand-wound and fully decorated, on show through the open caseback. This guide covers what you need to wear, set and look after your watch.

AT A GLANCE

YOUR WATCH

1	Bezel · MCR 12 h · MCT tachymeter
2	Hour hand · luminous
3	Small seconds · stops for setting
4	Chronograph seconds
5	12-hour counter
6	FKM rubber strap
7	Start / stop pusher
8	Minute hand · luminous
9	Crown · winding, time
10	30-minute counter
11	Reset pusher

WINDING & SETTING

0 · WINDING

The watch is hand-wound, so it doesn't wind itself on the wrist. Wind it every day: turn the crown clockwise until you feel resistance – only then is it fully wound – and never force it beyond that point.

1 · TIME

Pull the crown out; the small seconds stop. Turn it either way, then push the crown back in.

CHRONOGRAPH

Press the top pusher to start the chronograph, again to stop it, and once more to continue. With the chronograph stopped, press the bottom pusher to reset the hands to zero.

WATER RESISTANCE & CARE

WATER RESISTANCE · 10 ATM

Suitable for swimming and snorkelling, not for diving. Push the crown in before the watch meets water, and never operate the crown or the pushers under water. Avoid hot showers, saunas and steam.

CARE

Clean the case with a soft cloth, or with fresh water and a soft brush. Keep the watch away from perfume, chemicals and strong magnets – magnets can make it run fast.

BEZEL

MCR: turn the 12-hour bezel – 60 clicks, both ways – to follow a second time zone with the hour hand. MCT: start the chronograph at a marker and stop it after one kilometre; the chronograph seconds hand shows your average speed on the tachymeter scale.

STRAP

The watch comes on an FKM rubber strap.

TECHNICAL SPECIFICATIONS

DIAMETER	38 mm
THICKNESS	13.4 mm with crystal and caseback
LUG TO LUG	47 mm
CASE	316L stainless steel
BEZEL	MCR 12 h ceramic, 60 clicks, both ways · MCT fixed tachymeter, sandblasted

MOVEMENT	Sellita SW510 M b TOP Grade, hand-wound, Swiss Made
FUNCTIONS	Hours, minutes, small seconds, chronograph with 30-minute and 12-hour counters
LUME	X1 Old Radium Super-LumiNova
STRAP	FKM rubber

WARRANTY & SERVICE

WARRANTY

Two years from the date of delivery, on manufacturing defects of the movement, case and crystal. The warranty stays with the watch: a next owner is covered for the rest of the term, as long as we have the original order number.

NOT COVERED

Knocks and drops, water or fire damage, magnetisation, normal wear, and repairs or modifications we haven't approved.

SERVICE

As long as the watch runs well, it needs no service; a full service is typically due every 5–8 years. Request every repair through the service form on maenwatches.com. Under warranty, we cover insured shipping both ways, and a repair never shortens the warranty.

QUESTIONS

support@maenwatches.com – we aim to reply within two business days.
